SKILLS

Languages: SQL, Python, JavaScript, TypeScript, C++, HTML, CSS

Frameworks & Libraries: ReactJS, Redux, Sass, Socket.io, RESTful API, Styled-Component

Tools: Github, Git, Figma, Firebase, Heroku, Netlify, Jira, Postman

WORK EXPERIENCE

Eulerity

May 2023 - December 2023

Web Developer Intern | New York, NY

- Developed an activity log feature using React, Redux, and Restful API to enhance transparency and data-driven decisions for 1000+ franchise managers.
- Created custom hooks for reusability throughout the application.
- Collaborated with cross-functional teams to rapidly develop and implement new features and bug fixes.
- Participated in daily standup and weekly scrum sessions to enhance collaboration and project alignment.
- Ensured attention to detail and effective debugging for a polished final product.
- Streamlined agile development by managing project workflows, tasks, and bugs in Jira.

TECHNICAL PROJECTS

Aria | [Github](#) ~ [Youtube](#)

March 2023

- Developed an innovative YouTube sharing app that enables simultaneous viewing and fosters a collaborative environment.
- Utilized Socket.IO to enable efficient and real-time communication between users and server, enhancing user experience.
- Integrated Firebase for secure and efficient user authentication, improving the sign-up and login experience.

Crwn-Clothing | [Github](#)

February 2023

- Developed an e-commerce platform using React, Firebase authentication for seamless sign up/sign in with Google, and useContext for streamlined content management.
- Implemented an intuitive shopping cart feature that allows users to easily add and remove items, adjust quantities, and view their order summary.

Codenames | [Github](#)

December 2021

- Launched the development of a full-stack web application replicating the game Codenames, leveraging React and Django to achieve seamless unidirectional data flow and streamlined configuration management.
- Harnessed Django Channels framework for real-time communication and interactive features, fostering user engagement and collaboration.

EDUCATION

CPC TEST Program (IBM Partnership) | New York, NY

October 2024 - December 2024

Technology Exploration & Skills Training

Data Science, Cybersecurity, Cloud Computing

Hunter College, City University of New York | New York, NY

January 2020 - Present

Bachelor of Arts in Computer Science (Expected Graduation: December 2025)

Relevant Coursework: Data Structures and Algorithms, Object Oriented Programming (C++), Database Management (SQL), Intro to APIs (.NET, C#), Advanced Applications (React, API, Django), Digital Product Dev (Figma)
